Alrighty,

The transition to the FUDForum software is making good progress. I'm sure there are still a few things to iron out. If you come across an issue please report it in this area.

Subject: Avatars and Signatures

[View Forum Message](#) <> [Reply to Message](#)

---

The conversion didn't quite take on the signatures and avatars.

First, go into the 'Control Panel' - 'Account Settings' and make sure that you have the 'Use signature as default', 'Show signatures', 'Show Avatars' options set to 'yes'.

Signatures:

BBCoding on signatures may result in HUGE text. Simply fix this by retyping the signatures with the new system.

Avatars:

Simply delete and reupload the image file for your avatar if it doesn't appear on your messages after your first login.

Thanks

Alrighty,

The theme is still a work in progress but its better than the current default. Feel free to offer suggestions if you like.

Subject: 'Invisible Mode'

Posted by [like\\_a\\_god](#) on Thu, 02 Jun 2011 04:12:56 GMT

[View Forum Message](#) <> [Reply to Message](#)

---

So, it appears that the 'invisible mode' has been turned on for all imported accounts. If you wish to be listed as 'online' when browsing the forums please check your control panel/profile and make sure the relevant choice is turned off.

Subject: Dice Roller?

Posted by [like\\_a\\_god](#) on Thu, 16 Jun 2011 12:48:48 GMT

[View Forum Message](#) <> [Reply to Message](#)

---

Howdy,

I've been looking for a Dice Roller to either incorporate into the forum or to link to. I've not had tons of luck. However, if you find a Dice Rolling solution please let me know and I'll take a look at it.

So, apparently some forums have their attachment allowance size set to 0. Not sure why this is. However, if you want to post in a thread and you get an error regarding the image being above the size limit and that limit reads "0" please let me know and I'll change it.

Sorry about that.

Thanks for the heads up. We're seeing a rash of spambot activity as of late. Not really sure why. :( I'll go through the member list and clean it out once I have a moment to do so. Thankfully, I always have to moderate a users first post so we shouldn't see any actual spam postings.

Tangaroa,

Thanks for the note. I've set it up that I have to moderate all users so, even if they appear for a brief time on the "Members" screen spam bots won't be able to post :)

Greetings!

So, apparently Yahoo.com has changed a few privacy settings and ... blah blah blah... which was resulting in some not getting email notifications of recent postings. I've changed email domains internally to gmail.com. Hopefully this works...

Let me know if you are still having issues.
